DaviMendes
Computer Engineer

Personal Statement

Passionate for coding, I started with HTML at the age of fifteen through a magazine. Since then, went through a web development and an IT course, until the graduation in computer engineering. During the graduation, worked both as teacher assistant and researcher. At the final year I was an intern at Samsung R&D and Circuitar. At the former, worked primarily with Android and at the latter worked with Arduino and maintained the e-commerce front-end and back-end. United Android and Arduino at graduation thesis, reaching a mark of 9 out of 10.

Experience

08/15 - 12/15 Intern Circuitar Eletrônicos, Importação e Exportação, São Carlos (SP), Brazil
Development and maintenance of product's programming libraries.
Maintenance of company's e-commerce front-end (bootstrap) and back-end (django).

01/15 - 07/15 Auxiliary Samsung Instituto de Desenvolvimento para a Informática, Campinas (SP), Brazil
Development of prototypes to innovation of the team.

08/12 - 07/13 Researcher Universidade de São Paulo, São Carlos (SP), Brazil
Development of a system to review automatic aligned sentences.
Subproject of a translation study platform.

Education

2011 - 2015 Bachelor's Degree in Computer Engineering Universidade de São Paulo, Brazil
Main subjects: Programming, System Development, Embedded Systems.
Title of Thesis: "SmartPendant, a peripheral for smartphones Android".
